

DECLARATION OF PERFORMANCE

Regulation EU 305/2011

n°1121072016

The performances of the product Wood stove CHLOE NOIR, of the type V R 25, comply with the performances reported below.

Evaluation and performance verification are made according to the system 3

The performances were verified by the Notified Body Centre technique des industries de la fonte NB 1677

According to the testing report of the type: CTIF TD4621 - TD4621 P

Harmonized standards

EN 13240:2001+A2:2004

Key characteristics

Performance

Flammability

A1

Minimum distance to combustible materials:
 Back/sides/front

100 / 300 / 2000 mm

Risk of fuel falling

Complies with the standards

CO emission at 13% of O₂

0.07 %

Surface temperature

Complies with the standards

Electrical security

Complies with the standards

Ease of cleaning

Complies with the standards

Complies with the standards

Maximum operating pressure

NPD

Average smoke temperature at nominal speed

309 °C

Mechanical resistance

Complies with the standards

Thermal nominal output

6 KW

Energy efficiency

80 %

Other reported performances

4.5 g/s

12 Pa

12.3 %

7 / m³/h

Particles emissions (PM) at 13% of O₂

25 mg/Nm³
